**The Saratoga Hilton, Saratoga Springs, NY**

Tuesday 9:00 a.m. – 5:00 p.m. Course and Written Exam (High Rock)

Wednesday 9:00 a.m. – 12:00 p.m. Practical Exam. Off-site Location TBA

Concrete anchoring is critical to the safety and integrity of the constructed work. Certification is often required in your contract documents. Be prepared. Be certified.

This course provides education on the key elements of reliable anchoring and allows you to demonstrate your ability to read, comprehend, and execute instructions to properly install adhesive anchors in concrete.

The areas of adhesive anchor installation covered include:

- Understanding jobsite conditions relevant for correct selection of installation procedures

- Proper selection and assembly of the injection equipment

- Awareness of the impact of storage conditions

- Proper technique and equipment to minimize air voids at various orientations and depths

- Recognition of time limits for installation and positioning of anchor element (i.e., gel time)

- Installation of the anchor element in accordance with manufacturer's instructions

**ACI-CRSI certification requires applicants to pass both a written and a performance exam.**

**Recertification is necessary every five years, and requires successful completion of both the written and performance examinations.**
