Welcome from AGC NYS'

Chairman Vincent Iannelli

and

President and CEO Mike Elmendorf

On behalf of the AGC NYS staff, we welcome you to the 2014 Construction Industry Conference. This annual conference serves as an informational and educational event, which brings both government agencies as well as industry professionals together to discuss topics, developments, and legislation which impacts the construction industry.

This year, the focus of our conference is “best practices” with an eye on helping companies operate in the most safe and efficient manner. In addition, we have a number of training programs and certifications taking place throughout the conference so we urge you to check the schedule of events in our new mobile app and register in advance as space is limited. The presentations and breakout sessions we have lined up are focused on giving you different perspectives on key topics affecting our industry so we hope you engage in as many workshops as possible over the three days.

Thank you once again for attending the conference; enjoy your time with us.

Wednesday Opening Keynote Speaker: Curt Steinhorst

For the first time in history, four generations are working side by side—and a fifth generation is on the way. Each brings different strengths, values, and communication styles to the workplace. These differences can be challenging (you leave a voicemail and they reply by text), or a strategic opportunity depending how leaders respond.

In **Crossing the Generational Divide**, Curt Steinhorst reveals with wit and insight each generation’s workplace mindset and strengths. He shares surprising statistics, laugh-out-loud stories, and frontline-tested strategies that quickly drive results across generations. Attendees leave motivated to act with ready-to-use tools they can apply immediately.

Thursday: Rapid-Fire Tech Demo

In this high energy, fast paced demonstration, companies will be timed and given a short window to show-off cutting edge products in what is sure to be both a highly interactive and fun event. Participants will be introduced to new industry technology and have a chance to watch live as it is demonstrated in front of them. Don’t miss out on this new event! 2

Remember to help AGC “fill the truck” by bringing a toy to donate for the Toys for Tots program

To register for your booth at the Construction Expo, visit our website www.agcnys.org and click on Programs, AGC NYS Construction Industry Conference.

Booth fee is \$795 for Members and \$995 for non-members. We will once again have a section for firms who would like to introduce their technology to the industry.

Conference

Tuesday, December 9, 2014

Training Courses- Separate Registration Required - See Pages 6-7

9 a.m. - 5 p.m. (Travers)

ACI Concrete Flatwork Technician/Finisher Certification

9 a.m. - 5 p.m. (Whitney)

ACI-CRSE Adhesive Anchor Installation Course

1 p.m. - 5 p.m. (Saratoga 3)

NYSDEC Endorsed 4-Hour Erosion and Sediment Control (E&SC) Training

1 p.m. - 5 p.m. (Alabama)

Work Zone Traffic Control Supervisor/Competent Person and Flagger: Train the Trainer

Workshops

3 p.m. - 5 p.m. (Broadway 1 and 2)

ATC's in Design-Build Projects

3 p.m. - 5 p.m. (Broadway 3 and 4)

Accelerated Construction and Featured Projects

3 p.m. - 5 p.m. (High Rock)

Basic Industrial Hygiene for Construction

---END DAY---

***Registration and
Training Forms on
Pages 14-16***

Wednesday, December 10, 2014

8 a.m. - 8:15 a.m. (Saratoga 1-3)

Welcome Address: SUNY Chancellor Nancy Zimpher and NYS DOT Commissioner Joan McDonald
Safety Excellence Awards

8:30 a.m. Keynote

Crossing the Generational Divide: Unlocking the Power of Generations to Strengthen Your Business

Workshops

10 a.m. - 12 p.m. (Broadway 1 and 2)

NY State Thruway - News, Updates and Innovations

10 a.m. - 12 p.m. (Broadway 3 and 4)

Photogeometrics: Revolution of Close-Range Photogrammetry

10 a.m. - 12 p.m. (High Rock)

OSHA Rules and Recordkeeping Best Practices

10 a.m. - 12 p.m. (Travers - Alabama)

Asphalt Paving: Optimize Mix Designs for Improving Compaction

10:30 a.m. - 12 p.m. (Saratoga 1)

Legal: DMWBE Update

10:30 a.m. - 12 p.m. (Saratoga 2)

Winning the War for Talent: Strategies for Building Your Best Team

10:30 a.m. - 12 p.m. (Saratoga 3)

Geosynthetic Reinforced Soil - Integrated Bridge System (GRS-IBS)

11 a.m. - 7 p.m. (City Center)

Construction Expo and Technology Showcase

11:45 a.m. - 1 p.m. Lunch (City Center)

---CONTINUE DAY---

Schedule

Wednesday, December 10, 2014

1:15 p.m. - 3:15 p.m. (Saratoga 1)
Alternative Technical Concepts in Design-Bid-Build

1:15 p.m. - 3:15 p.m. (Saratoga 2)
Concrete Best Practices: Hot-Cold Weather,
Placing-Finishing and Unique Technologies

1:15 p.m. - 3:15 p.m. (Saratoga 3)
Rapid Construction: Featured Project

1:15 p.m. - 3:15 p.m. (Broadway 1 and 2)
21st Century Safety: At Your Fingertips

1:15 p.m. - 3:15 p.m. (Broadway 3)
Why Green Construction Will Become Code

1:15 p.m. - 3:15 p.m. (Broadway 4)

Training Courses

SEPERATE PRE-REGISTRATION AND FEES APPLY:

See pages 13 and 14 to register

Tuesday, December 9, 2014

NYSDEC Endorsed 4-Hour Erosion and Sediment Control (E&SC) Training

1:00 – 5:00 p.m. (Saratoga 3)

NYSDEC's SPDES General Permit for Stormwater Discharges from Construction Activity requires a contractor to identify the trained individual responsible for SWPPP implementation on permitted projects, and for project operators, including NYSDOT, to have sites inspected by qualified inspectors. Trained individuals and qualified inspectors need four hours of NYSDEC-endorsed training every three years. This seminar provides the four hours of training in proper erosion and sediment control principles and an overview of the SPDES permit requirements. Course participants will receive certificates of completion to use to verify training.

Presented by: Jim Lieberum, CPESC, Warren County Soil and Water Conservation District

Fee: \$85

ACI Concrete Flatwork Technician / Finisher Certification

9:00 a.m. – 2:00 p.m. Course (includes lunch) (Travers)

3:00 p.m. – 5:00 p.m. Written Exam

Public and private owners regularly require contractors to provide an ACI certified concrete flatwork technician and/or finisher for flatwork on their projects. Don't lose work due to non-conformance!

Certification Requirements

- ACI Flatwork Technician certification will be granted to those examinees who obtain a passing grade (70% or higher) on the written exam.
- ACI Flatwork Finisher certification will be granted to those who obtain a passing grade on the written exam and
EITHER a) possess one year (1500 hours) of approved work experience and successfully complete the ACI performance exam,
OR b) possess 3 years (4500 hours) of approved work experience and successfully complete the Alternative Performance Affidavit (Form D16).
- Recertify every five years by passing the written exam.

YOU MUST PRE-REGISTER BEFORE FRIDAY, NOVEMBER 14 IN ORDER TO RECEIVE COURSE MATERIALS

AND TO SUBMIT YOUR EXPERIENCE DOCUMENTATION IN ADVANCE. (see below)

ACI Flatwork certification information:

<http://www.concrete.org/Certification/CertificationPrograms.aspx?m=details&pgm=Concrete%20Flatwork%20Finisher%20and%20Technician&cert=Concrete%20Flatwork%20Finisher%20and%20Technician>

Presented by: Peter Maloney, PE, ACI Trainer

Fees: Training Course - \$295 (Includes work book, lunch and written exam.)

Performance Exam (if needed, will be offered separate from this course and written exam)

Training Courses

See pages 13 and 14 to register

Tuesday, December 9, 2014

ACI-CRSI Adhesive Anchor Installation Certification

9:00 a.m. – 3:00 p.m. (Whitney)

3:30 p.m. – 5:00 p.m. Practical Exam. Off-site Location TBA

Concrete anchoring is critical to the safety and integrity of the constructed work. Certification is often required in your contract documents. Be prepared. Be certified.

This course provides education on the key elements of reliable anchoring and allows you to demonstrate your ability to read, comprehend, and execute instructions to properly install adhesive anchors in concrete.

The areas of adhesive anchor installation covered include:

- Understanding jobsite conditions relevant for correct selection of installation procedures
- Proper selection and assembly of the injection equipment
- Awareness of the impact of storage conditions
- Proper technique and equipment to minimize air voids at various orientations and depths
- Recognition of time limits for installation and positioning of anchor element (i.e., gel time)
- Installation of the anchor element in accordance with manufacturer's instructions

ACI-CRSI certification requires applicants to pass both a written examination and performance examinations. Recertification is necessary every five years, and requires successful completion of both the written and performance examinations.

ACI Installer Certification Information: <http://www.concrete.org/Certification/CertificationPrograms.aspx?m=details&pgm=Adhesive%20Anchor%20Installer&cert=Adhesive%20Anchor%20Installer>

Presented by: Greg Novitzky, PE, NYCMA/ACI Trainer

Fee: \$450 per person (includes workbook, DVD, lunch, materials and testing)

Work Zone Traffic Control Supervisor/Competent Person

and ***Flagger: Train the Trainer***

1:00 – 5:00 p.m. (Alabama)

Contractors on NYSDOT and Thruway projects must have staff with this training per Section 619 - Work Zone Traffic Control. Learn the practices necessary to assure compliant and safe work zones.

Presenters: Sam Catalano, C.P. Ward. Inc.; James Thomas, Turner Construction; Brandon Briggs, Donnelly Construction; Chuck Riedel, NYSDOT

Fee: No Charge for pre-registrants; \$25 for walk-ins

Conference Workshops

TUESDAY, DECEMBER 9

3:00 – 5:00 pm

ATC's in Design-Build Projects

Alternative Technical Concepts (ATC), promoted through FHWA's Every Day Counts Innovation Program, is a process that allows design-build teams to submit innovative, cost-effective solutions that are equal to, or better than, the state's design and/or construction criteria. The New York State Department of Transportation and the New York State Thruway have utilized this process on the Tappan Zee and Kosciusko Bridge projects. This session will explain the process and the results!

Presenters: NYSDOT
2 PDH* (PE and DBIA)
Broadway 1&2

Accelerated Construction and Featured Projects

Delve into the details of Semi-Integral Abutments with Ultra-High Performance Concrete Connection for accelerated bridge construction. The session also includes a showcase of two interesting bridge projects: Route 40 over the Hoosic River, and Ramp GH from Route 15 NB to I-390 NB over the Erie Canal. Come hear from the teams how these projects went together.

Presenters: NYSDOT/Contractor Team
2 PDH*
Broadway 3&4

Basic Industrial Hygiene for Construction

An overview of industrial hygiene as it relates to the construction industry. This high level discussion will focus on exposure identification and evaluation and control of physical and chemical hazards in a dynamic, constantly changing work environment. A hands-on introduction to a variety of air sampling equipment and media is included along with ample time for questions and answers. Much emphasis has been put on health hazards by the Occupational Safety and Health Administration and the timing for such a program could not be more appropriate. Don't miss this one!

Presenter: Joseph E David, III CIH, CSP, ARM, Travelers Insurance
2 PDH*
High Rock

WEDNESDAY, DECEMBER 10

10:00 a.m. – Noon

NY State Thruway – News, Updates and Innovations

Leadership of the Thruway and their consultant teams will discuss Highway Investment Strategies, Wind Turbines and the New New York Bridge - years 1&2. Don't miss this first-look at updates, innovations and program developments across the system.

Presenters: Michael Shamma and Richard Garrabrant, NYSTA; Paul Provost and Joseph Stahl, NYSTA; Ted Zoli, PE, HNTB
2 PDH*
Broadway 1&2

Photogeometrics: Revolution of Close-Range Photogrammetry

Driven by the rapid evolution of digital photography and personal computing in recent years, close-range photogrammetry with regular cameras rapidly changes the way surveyors work worldwide. This seminar will review the principles of photogrammetry, introduce some real-life case studies of surveying works, and provide practical hands-on best practices for drawing plans and making measurements directly on images of regular cameras.

Presenter: Jad Jarroush, PhD, Founder and CTO, Datumate
2 PDH* (PE, PLS)
Broadway 3&4

**REMINDER: Help Us "Fill the Truck"
by Bringing a Toy for Our "Toys for
Tots" Drive**

Wednesday Workshops
(10:00 a.m. - Noon continued...)

OSHA Rules and Recordkeeping Best Practices

This course is for companies required to keep records of occupational illnesses and injuries for OSHA compliance. Attendees will receive the 300, 300A and 301 forms. Much emphasis has been put on recordkeeping requirements by the Occupational Safety and Health Administration. You will learn how to determine what injuries are recordable and reportable per the rule and learn how to properly complete the recordkeeping forms and avoid over-reporting of incidents. Do not miss this opportunity to learn from an expert in these complex and confusing recordkeeping requirements. Presenter: Donna Haley, Associate Safety and Health Trainer/Consultant, NYS DOL High Rock

Asphalt Paving: Optimize Mix Designs for Improving Compaction

Increased field density of HMA pavements leads to improved field performance. This workshop will discuss ways to optimize mix designs using various approaches to improve in place density. Plant and field personnel will take away great tools for project improvement. Presenter: Greg Harder, PE, The Asphalt Institute 2 PDH* Travers-Alabama

10:30 a.m. - Noon

Legal: DMWBE Update

This presentation will provide information regarding news and trends in contractor DMWBE utilization. The impacts and effects of the June 2014 changes to NYS MWBE Regulations, including new language regarding the definition of MWBE “commercially useful function,” new factors used in agency assessment of contract goals, and use of new diversity practices standards for certain contracts, will be discussed. This seminar will also discuss the dramatic uptick in DMWBE False Claim Act investigations in New York, typical recent fact patterns, common traps and minimal contractor compliance requirements. The proactive and defensive use of compliance programs and policies as tools to minimize contractor False Claim Act exposure based on DMWBE utilization will be examined. Presenter: Jennifer Harvey, Esq., Couch White Saratoga 1

Wednesday Workshops
(10:30 a.m. - Noon continued...)

Winning the War for Talent: Strategies for Building Your Best Team

Top talent with key skills is in short supply. This, combined with OFCCP changes to recruitment outreach to veterans and individuals with disabilities, makes 2014 and 2015 extra challenging for all contractors and subcontractors doing public or private work. Organizations need to adapt and innovate. Join our construction industry recruitment expert and look at current trends and delve into case studies on best practices to attract, train, manage, motivate, reward and retain the employees that you need to grow your business. Presenter: Bryan May, Bird Dog Saratoga 2

Geosynthetic Reinforced Soil - Integrated Bridge System (GRS-IBS)

Geosynthetic Reinforced Soil - Integrated Bridge System technology, promoted through FHWA’s Every Day Counts Innovation Program, uses alternating layers of compacted granular fill material and sheets of geotextile reinforcement to construct a bridge abutment. St. Lawrence County is a national leader in the use of this technology. This session will discuss how these systems are assembled and performance experiences to-date. Presenters: St. Lawrence County, NYSDOT 1.5 PDH* Saratoga 3

Additional Wednesday Notes:

Opening Session and Keynote:
8:00 a.m. - 9:45 a.m.

Construction Expo and Technology Showcase:
11:00 a.m. – 7:00 p.m.

Luncheon at City Center:
11:45 a.m. – 1:00 p.m.

Reception and Buffet at City Center
5:30 p.m. – 7:00 p.m.

Wednesday Workshops

1:15 – 3:15 p.m.

Alternative Technical Concepts in Design-Bid-Build

The use of Alternative Technical Concepts (ATCs) is widely used on alternative procurements such as design-build. Learn how this methodology can be used on traditional design-bid-build work. National experts will walk you through the process, best practices and advantages.

Presenters: David Unkefer, FHWA

2 PDH*

Saratoga 1

Concrete Best Practices: Hot-Cold Weather, Placing-Finishing and Unique Technologies

Presentations and discussion on unique concrete technologies including Pervious, Cellular, Lightweight, Shotcrete, ICF's, and Tilt-up. Also, best practices for Hot Weather Concreting; Concrete Maturity in Cold Weather; and Placing and Finishing. Ample opportunity for discussion is included in this info-packed session. A one-stop-shop of info for concrete practitioners.

Presenters: Steven Moore, PE, Sr. Engineer, Atlantic Testing Laboratories; Greg Novitzki, PE, LEED AP, VP NY Construction Materials; Ronald Vaughn, FACI, Director, Tech Services, Northeast Solite Corp.

2 PDH*

Saratoga 2

Rapid Construction: Featured Project

The I-84 project, replacing two bridges over Dingle Ridge Road, has won national recognition for its use of slide-in accelerated bridge construction. Come hear how the team devised and executed the plan to replace the two bridges over two weekend closures, flawlessly. Learn some best practices and formulate new ideas for your own projects.

Presenters: NYSDOT Construction

2 PDH*

Saratoga 3

21st Century Safety: At your Fingertips

There's an app for that! Whether it is determining audiometric levels, reporting near misses or inspecting a jobsite; the use of smartphones is changing the way Safety Managers perform their jobs. Presented by seasoned "in the trenches" safety professionals, this

Wednesday Workshops

session will review some of the more popular safety apps and websites that allow companies to protect their greatest resource, their people.

Presenters: Brad Simon, CHST, Safety Coordinator, Harrison & Burrowes Bridge Constructors; Chris Fuller, CSP, Unit Safety Director, Turner Construction
2 PDH*

Broadway 1&2

Why Green Construction will Become Code

A partnership among five major U.S. standard developers in the U.S. will harmonize ASHRAE 189.1, the International Green Construction Code (IgCC), and the LEED rating systems. The goal is simplifying implementation of local green building regulations and incentive programs by combining the three systems as parts of one standard. Learn from industry experts how this agreement leads to rapid adoption of green standards by designers, builders, developers, and a number of other building industry groups.

Presenters: TBA

2 PDH* (PE, AIA)

Broadway 3

DMWBE: Building For Long-Term Success

This panel will discuss the ramifications of the pending 2016 Empire State Development Disparity Study, certification and capacity of qualified businesses, and business development. Come hear firsthand experiences and successful methods for incorporating small businesses in your project procurement strategy.

Presenters: TBA (ESD) Dean Bennett; AMENY

Broadway 4

Joint Ventures – Make Sure You Don't Get Fleas

Whether for geographic, strategic, financial/bonding capacity or project delivery reasons, joint ventures are often a necessary and valuable part of a contractors' business model. This panel will explore issues and offer advice on how to select the right partner and ensure through teaming agreements, contract documents and insurance instruments that the project and accompanying risk – which may include design liability in a design/build project joint venture - will be managed effectively.

Presenters: Paul Monte, Sean Ryan - Peckar & Abramson; David Marino, Nancy Schnee - AON.
High Rock

**All PDHs applied for*

3:30 – 5:30 p.m.

The Three Rules of Construction: Document. Document. Document.

Effective communications and documentation can increase the likelihood of resolving issues in a timely manner and without resort to the claims or litigation process. Using real life examples, you will learn how to improve your recordkeeping and increase your cost recovery success. Topics include: Standard records (Meeting Minutes, Logs, Daily Reports); Testing and inspections; Communications (Letters, Emails, Schedules); When and how to document oral communications; Tips for effective photographs and videos.

Presenter: J. Scott Lowe, PE, Trauner Consulting Services
1.5 PDH*
Saratoga 1

Leveraging Technology – Best Practices from Design through Operation

New technologies are constantly being added to the civil contractor's tool list. What is available and what can you use? Some are so valuable purchase is warranted, others can be contracted on an as needed basis. Get up-to-the-minute info from this author and blogger in the AMG/GPS/software/emerging technology space.

Presenter: Marco Cecala, Take-off Professionals
2 PDH * (PE, PLS)
Saratoga 2

Geotech, Concrete and Innovation

Specialty Concrete Mixtures and Applications -

Concrete specialists will discuss various concrete mixtures used for special applications, describing when to use these mixtures, how the mixtures react to environmental conditions, and best practices to assure durability. Emphasis will be on Self-Consolidating Concrete and Accelerated Concrete mixtures.

Presenters: Don Streeter, Concrete Program Manager; NYS DOT
1 PDH*

Mine Subsidence – surface complications from the collapse of underground mines is a problem in many locations across the United States. New York State has its share of roads and bridges affected by this issue. Examine three case studies, from a short road closure

to the loss of one of the largest underground mines in the country.

Presenter: Bob Burnett, Director, Geotechnical Engineering Bureau, NYSDOT
1 PDH*
Saratoga 3

OSHA Update:

This OSHA Update is of utmost interest to all attendees. Presenters will look at what the current emphasis is as far as enforcement goes and what contractors can expect from a regulatory standpoint down the road. Take advantage of the opportunity to meet local OSHA representatives and to hear first-hand what OSHA expects from construction contractors working in OSHA's Region 2.

Presenters: Kim Castillon, OSHA, Albany; Gordon Deleys, OSHA, Buffalo
Broadway 1&2

What Goes on in the Mind of Your Commercial Insurance Underwriter?

While most contractors know their Surety Underwriter, very few know their Commercial Insurance Underwriter, much less hear how they differentiate a good contractor from a great one. Here's your chance to hear it straight from the Underwriter's mouth. Two Senior Commercial Insurance Underwriters, from major carriers in the New York marketplace, will provide you with insight as to what they expect in a submission, how they underwrite the risk and what goes into the premium rating. Don't miss this opportunity to learn how you can be a great contractor to your underwriter.

Presenter: Kevin A. Viaña, Vice President, Specialty Risks Division, Marshall & Sterling, Inc.
Broadway 3

Public Work and Prevailing Wage Provisions

Changes to rules, interpretations and regulations seem to be constant. Chris Alund, Director of the Bureau of Public Work, will update you on the latest laws, requirements and procedures for successful public works contracting. Rules and regs impacting contractors will be discussed in detail.

Presenter: Christopher Alund, Director Bureau of Public Work, NYSDOL
Broadway 4

Wednesday 3:30-5:30 Continued...

NYSDEC: Billions for Storm Reconstruction and Permit Updates

Find out the latest up-to-date information on the billions in federal funding coming to New York for storm reconstruction and get more information on the DEC Environmental Audit Policy, Brownfields, SPDES, and their latest incentives to Lean and Streamline Permitting.

Presenters: NYS DEC
High Rock

Legal: Level the Field in Public (and Private) Contracts - Frontline reflections of an attorney/engineer

These are challenging times in our industry. Learn from this experienced industry practitioner key points to incorporate in your business and project management planning. Highlights include adherence contracts; problem sources; contractor defensive actions; notice minefields; exculpatory provisions; concurrent delays; subcontractor liquidating agreements; expedited claims techniques; and contractually tailored damages. Presenter: Jack Kannry, Esq., PE, Warshaw Burstein Travers

THURSDAY, DECEMBER 11
