

2013 Construction Industry Conference

December 10-12 | Saratoga Hilton at City Center
Saratoga Springs, New York

Register On-Line at:

WWW.AGCNYS.ORG

THE MOST ADVANCED INFORMATION ON THE INDUSTRY

Conference Training Seminars

SEPARATE PRE-REGISTRATION AND FEES APPLY

Future Construction Leaders

The Future Construction Leaders of New York State (FCLNYS) program teaches participants the issues involved in managing a construction business in New York State. Attendees will learn, in a structured environment, what they might otherwise spend years learning from personal experience. From 1998 to 2013, AGC has graduated more than 250 professionals from the Future Construction Leaders program. Both participants and their executive leaders rate the program as a huge success. This session is the first of four meetings that comprise this program.

Registration for this program requires a separate registration form. You can download a flyer at: https://www.agcnys.org/files/Education__Training/Future_Leaders/FCLNYS_Flyer_13-14.pdf or contact Brendan Manning at bmanning@agcnys.org or at (518) 456-1134.

Start Time: Monday - 4:00pm

ACI Concrete Flatwork Technician / Finisher Certification

Public and private owners regularly require contractors to provide an ACI certified concrete flatwork technician and/or finisher for flatwork on their projects. Don't lose work due to non-conformance!

You must pre-register before Friday November 15 in order to receive course materials and to submit your experience documentation in advance. https://www.agcnys.org/files/00_2013_Ind_Conf_forms/Flatwork2013.pdf

Time: Tuesday -9:00am-4:00pm

**Fee: \$285.00 (Includes book, lunch & exam)
Performance Exam Fee: \$100**

Work Zone Traffic Control Competent Person and Flagger: Train the Trainer

NYS DOT Standard Specification 619 requires this training in the area of Work Zone Traffic Control. Learn the practices necessary to assure compliant and safe work zones.

Time: Tuesday - 9:00am-12:00pm

Pre-registration required

Fee: No Charge

HMA Density Testing Inspector- Recertification Exam Only

HMA Density Inspector Certification Program provides qualification of personnel performing density testing on Hot Mix Asphalt in New York State. Certification is valid for five years and is based on successfully passing the written examination. Technicians must hold an active certificate in order to perform work on projects and Recertification must be achieved within 60 days of prior certificate expiration.

(Registration handled by Alfred State University: ccet@alfredstate.edu)

Time: Tuesday - 1:00pm-4:00pm

Pre-registration closes Nov. 22nd

Fee: \$325.00 per person

SPDES Trained Individual/Qualified Inspector

NYSDEC's SPDES General Permit for Stormwater Discharges from Construction Activity requires a contractor to identify the trained individual responsible for SWPPP implementation on permitted projects, and for project operators, including NYSDOT, to have sites inspected by qualified inspectors. Trained individuals and qualified inspectors need to receive four hours of NYSDEC-endorsed training every three years. This seminar provides the four hours of training in proper erosion and sediment control principles and an overview of the SPDES permit requirements. Course participants will receive certificates of completion to use to verify training. *Presented by: Jim Lieberum, CPESC, Warren County Soil and Water Conservation District.*

Time: Tuesday - 1:00pm-5:00pm

Fee: \$75.00 per person

Roadway Safety Plus-RS +

The RS+ Software is possibly the most advanced interactive software for roadway construction safety and forms the basis of this workshop. Participants acquire not only skills on how to use this program to continue learning, but also to provide training to others. This course is suited to managers, supervisors, and crew leaders - anyone in charge of your workers' safety and training. The RS+ software is provided to each participant. **Seating limited to 40 attendees.**

Time: Wednesday - 1:00pm-5:00pm

Pre-registration required

No Fee

Tuesday
AGC NYS Jeffrey J. Zogg
Build New York Awards

Developed in 1990 as a way to highlight the positive impact of the construction industry in New York State involving building and heavy/highway construction, the Jeffrey J. Zogg Build NY Award will be presented to the winning construction firms on Tuesday evening.

Start Time: Tuesday, 5:00pm (Reception to follow)

Wednesday
Keynote Speaker Mark O'Brien
MISSION: My Safety

Marine Corporal (Ret.) and Purple Heart recipient, Mark O'Brien shares his amazing stories of courage and strength in facing and overcoming life's adversities. Using his life experiences, Mark describes 3 key weapons to win the war against accidents: Training, Personal Protective Equipment (PPE) and Support Systems.

Start Time: Wednesday, 8:30am

Thursday
Breakfast Presentation:
Julian Clayton & Doug Chambers
The Social and Mobile Internet -
Improving the Construction Industry

Construction projects are the epitome of a real world social network - multiple companies attempting to collaborate and communicate both internally and with one another. Yet many of the processes for communication and issue tracking don't allow for real-time, field-based collaboration. We communicate with our friends and families instantaneously, yet we still witness project delays as we wait for meetings to occur and paper reports to arrive.

Start Time: Thursday, 8:30am

Tuesday Workshops

FEATURED PRESENTATION: Choosing by Advantages

Choosing by Advantages (CBA) is a method designed to make decision-making more effective for organizations, project teams, and individuals and emphasizes successful delivery of benefits to all stakeholders. CBA supports The Toyota Way Principle 13 – “Make decisions slowly by consensus, thoroughly considering all options; implement rapidly.”

By focusing on advantages, CBA connects decision-makers with value. Your organization can realize immediate benefit from this essential session.

Presenter: Hal Macomber, Lean Project Consulting

Time: 3:00pm - 5:00pm Saratoga 1

Porous Pavements - What, Why, Where, How?

A focus on the transportation improvement element of porous pavement and a brief overview of the engineering basis and science behind the design of porous pavement, its environmental benefits, durability and expected long term impacts relative to water quality preservation.

Presenters: Tom Baird, Barton & Loguidice; Chris Euler, NYSDOT; Greg Novitzki, NYCMA

Time: 3:00pm-5:00pm (2PDH)* Broadway 1&2

Wednesday Workshops

Work Zones – The Good, the Bad and the Ugly and Safe

Maintaining a safe and effective work zone is critical to your project's success. The Manual of Uniform Traffic Control is the guide for accomplishing this. Learn the ins and outs of this federal document and how it applies to urban and rural operation and design of work zone traffic control here in New York.

Presenter: Emmett McDevitt, FHWA NY Division

Time: 10:00am-Noon Saratoga 1

Accelerated Bridge Construction

(ABC) uses safe and cost-effective planning, design, materials and construction methods to reduce the on-site construction time involved in building bridges.

NYSDOT Accelerated Bridges(part of NY Works Program) utilized ABC techniques to construct 15 deck replacements and two Modular Deck Beams (Twin Bridges). Hear lessons learned from project team members: Jeff Hanlon, Slate Hill Constructors; Erich Brown, Lane Construction; Wahid Albert, NYSDOT

Time: 10:00am-Noon (2PDH)* Saratoga 2

ACC Pavements Updates

Learn what's new and developing in the world of Asphalt Paving. Topics to be covered include: Longitudinal Joint Construction Best Practices; New Binder Specification and Ordering Information; Brief Intro to Intelligent Compaction and High RAP Mixes. Also, hear how DOT is moving forward with Alternate Design/Alternate Bid for pavement projects.

Presenter: Greg Harder, The Asphalt Institute

Time: 10:00am-Noon (2PDH)* Saratoga 3

Wednesday Workshops

Change Orders - Successful Best Practices

Being able to get back what you spend is so important! Come learn what makes your Change Order run smoothly through the approval process – from jobsite through Comptroller.

Presenter: Brain DeWald, NYSDOT

Time: 10:00am-11:00am Broadway 1

ACORD Certificate Revisions

AGC NYS and its members spearheaded recent changes to this important insurance form for use in NY. We will describe the changes and how they benefit your contracts.

Presenter: Kevin Viana, Marshall Sterling.

Time: 11:00am-Noon Broadway 1

RFQ and RFP Best Practices

Based on a program developed by AGC of America, this workshop provides best practices on selecting teams via Requests for Qualifications (RFQs) and Requests for Proposals (RFPs). Attendees will learn best practices for: ·developing RFQs and RFPs ·evaluating the information received ·interviewing the proposing firms ·selecting the best firm(s) for the assignment.

Presenter: Carl Stewart, Turner Construction

Time: 10:00am-Noon Broadway 2

Practical Aspects of Construction Scheduling

You will learn the practical intent of CPM scheduling and its use to best manage a project and mitigate risk. Major topics include: Basic concept of CPM Scheduling; Overview and utilization of Primavera P6; Recoverable costs/damages that a Contractor should be aware of (How to keep the money you've earned and/or collect the money you're owed !!); Best practices for tracking and recording project progress, schedule impacts and job costs. *Presenters: Ian Street and Tom Sinacore, Nautilus Consulting, LLC*

Time: 10:00am-Noon

Broadway 3 &4

Economic Development Council - Incentive Programs

This session provides details and requirements of the Governor's Start-Up NY program-- tax free zones on college and university campuses. The session will also review the state's other most important economic development program, the Excelsior Jobs Program-- significant and refundable tax credits to projects in several industry clusters. Two project case studies will demonstrate how state, federal, and local economic development finance programs made them economically viable for the developers. *Presenter: Brian McMahon, Economic Development Council*

Time: 10:00am-11:00am

High Rock

Vermiculite – Contractual Considerations

As AGC NYS has been reporting, Vermiculite in projects has become an issue for owners and contractors since the NYS Health Department has declared that it be treated as hazardous /asbestos containing material. Attorneys Jim Hughes of Hancock & Estabrook and Robbie MacPherson of The Gibbons Law Firm will be joined by Joe Charczenko of Construction Risk Partners to discuss the contractual and insurance considerations related to this issue.

Time: 11:00am-Noon

High Rock

Wednesday Workshops

Emerging Businesses: Best Practices for Bid Preparation

Developed specifically for emerging firms, this session will provide you with some best practices that you can take away and use immediately to successfully navigate the pre-bid process and provide responsive proposals to Prime Contractors. Topics include: How to find out about projects; who is holding plans; how to develop a responsive proposal and what to do after it is submitted.

Presenters: Jodi Riano, NYSDOT; Linda Jedrysik, Natural Restorations by Linda J; Moses Gibbs, Decca Paving, Mike Smith, Bonadio

Time: 10:00am-Noon

Travers

AMG & 3D Grade Control –Best Practices & Solutions

Learn from a team with the highest level of expertise in all facets of data preparation, software, site surveying, AMG, emerging technologies, QA/QC and best practices. Presented from the perspectives of the software provider, a design consultant and the survey staff of major heavy-highway contractor you will take away plenty of impactful ideas to apply to your own real-world situations.

Presenters: Mike Hyman, Carlson Software; Jay Jones, Aubertine and Currier A&E; Mike Momrow, Rifenburg Construction

Time: 1:00pm-3:00pm (2PDH)* PE, PLS Saratoga 1

Innovations in Materials: Intelligent Compaction, Recycling and Reuse

Improving Quality Control of Asphalt Paving using Intelligent Compaction Technology:

Innovation in compaction technology can provide important benefits to both owner agencies and contractors. These benefits allow for an improved compaction process and better density which can lead to longer service life of asphalt pavement. This presentation will answer several key questions: What is Intelligent Compaction? What are “lessons learned” on actual IC asphalt paving construction projects? What tools are available now to help an agency or contractors to start using IC on their projects?

Presenter: Bob Horan, The Asphalt Institute

Recycled Materials Program Update: Updated information from FHWA and AASHTO on efforts to advance recycled materials production and usage; also national in-place recycling efforts. Open discussions on how the changes may affect state and local recycling efforts while maintaining cost effective long-lasting pavements.

Presenter: Victor (Lee) Gallivan, FHWA

Time: 1:00pm-3:00pm (2PDH)*

Saratoga 2

NY State Thruway – News, Updates and Innovations

All the news you need from the owner of two cross-state facilities which impact commerce, tourism and economic development in NY. The Bridge; Flooding, Impacts and Improvements on the Canal System; Bid Express and new Construction Management Software Implementations; Capital Program Update. *Presenters: David Capobianco, NYS Thruway Authority, and Robert Brunner, HDR, Inc.; Joseph Savoie, NYS Thruway Authority and Howard Goebel, NYS Canal Corp.; James Chicoine, Martin White, Michael Shamma, NYS Thruway Authority*

Time: 1:00pm-3:00pm (1PDH)* Saratoga 3

Wednesday Workshops

Enhance Your Financial Statement for Banking and Bonding Purposes

This presentation provides participants with an understanding of financial statements for non-accountants. You will be able to better understand the balance sheet, working capital, relationships, income statement and absorption of overhead, SG&A cash flow and WIP schedule. Skills needed for your financial health and wellness. *Presenter: Kenneth C. Gardiner, CPA, CCIFP, CDA, Dannible & McKee*

Time: 1:00pm-3:00pm

Broadway 1

Innovative Developments at NYSDEC

NEW Environmental Assessment Forms The new model environmental assessment form (EAF) became effective on October 7, 2013. This session will include a demonstration of the interactive capability of the new forms including the use of the companion workbooks and the EAF Mapper software. The EAF Mapper software will automatically scan over 50 GIS data layers and populate many of the place-based questions on the EAF significantly reducing the time needed by project sponsors to complete the forms.

Presenter: Jack Nasca, NYSDEC, Director, Division of Environmental Permits

Environmental Audit Policy – your opportunity to partner with DEC and mitigate risk.

The Department’s new policy encourages regulated businesses to self-perform environmental audits and disclose identified unacceptable conditions; then, with DEC coordination, adopt effective approaches to prevent future violations, including pollution prevention measures, thereby increasing compliance with laws and regulations. Using this joint partnership, participating firms can qualify for reduced penalties while protecting human health and the environment.

Presenter: Elizabeth Meer, NYSDEC, Special Assistant for Pollution Prevention

Time: 1:00pm-3:00pm

Broadway 2

Featured Projects:

Build America Award Winner - NYS Capitol Building Renovations

In May 2011, Governor Andrew M. Cuomo announced a revised and expedited timetable for completing the on-going restoration of the New York State Capitol. The result—completion two years ahead of schedule and a savings of \$2.3 million. Acceleration involved doubling the workforce, increasing roof access for workers, simultaneous work of multiple trades, and streamlining technical review while maintaining a focus on safety, pride of work, and reverence to history. The New York State Capitol is a National Landmark poised to last for generations to come. Learn how the project team successfully met the challenge.

Presenters: Phil Brault, Consigli Construction

Build New York - Project TBA

Time: 1:00pm-3:00pm (2PDH)* Broadway 3&4

Build New York Award Winner – Sustainability Hall on RIT Campus.

The Golisano Institute for Sustainability’s mission to undertake world-class education and research programs in sustainability is reflected in their 84,000 SF headquarters building which achieved the LEED Platinum designation through innovative components – from the ground up. Project leaders will provide insight into this successful effort.

Presenter: Josh Reinhard, LeChase Construction

1 PDH*, LEED CE*

Broadway 3 & 4

**All PDHs applied for*

Wednesday Workshops

NYSDOL/USDOL Updates

The state and federal Departments of Labor will provide analysis of existing regulations regarding prevailing wage work and apprentice programs. Attendees will also hear about proposed new programs and regulations.

Presenter: Christopher Alund, NYSDOL

Time: 1:00pm-3:00pm

High Rock

Roadway Safety Plus-RS+ - (Pre-registration required)

The RS+ Software, is possibly the most advanced interactive software for roadway construction safety and forms the basis of this workshop. Participants acquire not only skills on how to use this program to continue learning, but also to provide training to others. This course is suited to managers, supervisors, and crew leaders - anyone in charge of your workers' safety and training.

Time: 1:00pm-3:00pm

Travers

Safety & Health: GHS - Are you in Harmony?

In March, 2012 OSHA revised its Hazard Communication Standard to align with a Global Harmonization System (GHS). Effective December 1, 2013, Contractor employers must have trained their workers on the new label elements and the SDS format. This session will explain the new labeling and Safety Data Sheet changes and provide reference materials that will improve the effectiveness of employer's training.

Presenter: Jeff LaBarge, Liberty Mutual Insurance

Time: 3:15pm-4:15pm (1PDH)*

Saratoga 1

Manage Your Site during an OSHA Visit: Have you experienced an OSHA inspection? Were you prepared?

This program - designed for company owners, project managers, superintendents, safety directors and field foremen, covers what triggers an inspection, an employer's rights under the OSH Act and ways to minimize OSHA citations. A "must see" program.

Presenters: Paul Wigger, D A Collins Construction; James Redmond, AGC NYS Safety Services

Time: 4:15pm-5:15pm

Saratoga 1

Featured Projects

Route 17 Parksville Bypass - This \$94Million project for NYSDOT entailed working in sensitive environmental areas - constructing a bridge without disturbing the terrain below was key. Hear from project team members how they addressed the environmental concerns while delivering this successful project.

RG&E Station 5 Power Tunnel Rehabilitation - The original generating facility, originally constructed in 1917, recently underwent a major undertaking to reline the 16 foot diameter power intake tunnel under the Genesee River. The use of slip forms and cast in-place construction was further complicated by the confined spaces and restricted access. This successful project assures annual delivery of 219 Million KWH of electricity for the next 100 years.

Time: 3:15pm-4:15pm (1PDH)*

Saratoga 2

Wednesday Workshops

PCC Pavements Updates and Innovations

All the latest on the concrete industry's drive for innovation. Hear about advances in concrete pavement technology, including an update on subbase requirements at NYSDOT. Learn about Illinois Tollway's major new sustainable reconstruction initiative using recycled asphalt as aggregate in concrete and other Portland cement concrete paving innovations, including overlays, roller compacted paving, stringless paving and other equipment developments. A must see for anyone involved in concrete paving.

Presenters: Gerold Voigt, ACPA; Ross Bentsen, Quigg Engineering; Illinois Tollway; Bill Cuerdon, NYSDOT

Time: 3:15pm-5:15pm (2PDH)*

Saratoga 3

Current Codes, Regulations and Health Issues - Code Rule 56 and Vermiculite

New York State Code Rule 56: Requirements & Changes in the Asbestos Code Rule

New York State Industrial Code Rule 56 regulates the standards and procedures regarding the inspection for asbestos prior to a renovation, repair, remodeling or demolition project and for the handling, disturbance and abatement of asbestos materials. The current Code Rule was amended in March of 2007, and is currently again in revision. This presentation outlines and reviews the content pertinent to an Owner, General Contractor or Construction Manager. Correlation with OSHA and EPA will also be covered. *Presenter: Peter DeLucia, AAC Contracting*

Vermiculite - Looking for a needle in a leaf pile
Presentation on the problems related to asbestos-contaminated vermiculite including an overview of the history of vermiculite mining, diseases from vermiculite exposure, vermiculite in the environment, vermiculite's analytical challenges, and 3D images of asbestos in vermiculite.

Presenter: Dr. James Webber, NYSDOH retired

Time: 3:15pm-5:15pm (1PDH)*

Broadway 1

Making the Most of NYSDEC's Newest Innovations

This session will provide an update on new or revised laws, rules and policies that affect companies today or in the near future. Among the topics to be discussed are:

- DEC new partnership program encouraging industry to self-report violations of environmental laws and regulations. What are the potential benefits and risks of self-reporting?
- What are the potential consequences of DEC's 300 plus page SEQRA workbook on project permitting in New York?

Presenter: Adam Schultz, Couch White

Time: 3:15pm-5:15pm

Broadway 2

Design-Build, Joint Venture, and Teaming Agreements

Join construction attorneys from Couch White for a discussion on how to make Design-Build, Joint Venture, and Teaming Agreements work for your projects. This session will provide an overview of the structure and key features of these agreements; the differences among them and their relationship to the ConsensusDOCs and AIA contract documents; suggested strategy tips; and traps to watch out for. *Presenters: Jeremy Smith and Joel Howard, Couch White*

Time: 3:15pm-5:15pm

Broadway 3&4

Wednesday Workshops

BIM in Use

Keys to Success - learn from a panel of project team members how the use of Building Information Modeling can assure a highly successful project completion. The presenters will provide insight into best practices to apply to your project.

Presenter: Tony Onofrio, Turner Construction

Time: 3:15pm-4:15pm (1PDH)* High Rock

Certificates of Occupancy - "Ten Steps to Success"

In NYS, Agencies have the responsibility of issuing Building Permits and then upon completion of a project the final Certificate of Compliance.

Presenter: James Galarneau, State University Construction Fund

Time: 4:15pm-5:15pm High Rock

Thursday Workshops

Stream Restoration Best Practices

Increase your knowledge of construction in streams, especially, after flood events. This workshop will provide general information on stream science and methods for post-flooding restoration work in a manner that protects infrastructure, property, stream banks, and natural ecosystems. Proper stream restoration can reduce the need for additional reconstruction and repairs, saving valuable time and money and protecting the natural resources of New York State.

Presenters: Graydon Dutcher and Tom Mallory, Delaware Soil and Water Conservation District.

Time: 9:30am-11:30am (2PDH)* Broadway 1 & 2

Ethics in Contracting

Tight project budgets, compressed delivery schedules and unforeseen changes all require equitable and ethical decision-making. Discuss various scenarios and how ethics play into a decision.

Time: 9:30am-10:30am (1PDH)* Broadway 3 & 4

MWBE Utilization - Counting the Right Way

Learn best practices for achieving and maintaining contractor compliance with various M/WBE participation requirements. Discussion includes increases in participation goals, along with methods for identifying certified firms, developing reliable contractor networks and remaining compliant. Also to be covered - documentation standards; utilization plans and properly counting participation; preferred subcontracting methods; waivers and modifications. All beneficial to the prime-sub relationship and strengthening your MWBE network.

Presenter: Jennifer Harvey, Couch White

Time: 9:30am-11:30am High Rock

Conference Schedule

TUESDAY, December 10, 2013

9:00 am-5:00 pm	Future Construction Leaders <i>Pre-Registration Required</i>	High Rock
9:00 am-4:00 pm	ACI Flatwork <i>Pre-Registration Required</i>	Travers
9:00 am-12:00 pm	Work Zone Traffic Control Competent Person <i>Pre-Registration Required</i>	Alabama
1:00 pm-4:00 pm	HMA Density Testing Inspector Exam - <i>Pre-Registration Required</i>	Alabama
1:00 pm-5:00 pm	SPDES Trained Individual/ Qualified Inspector <i>Pre-Registration Required</i>	Saratoga 3
