

RETEST INFORMATION

Opportunities for taking a written certification retest if the written test is failed can be made by contacting the CCET office at 607-587-4049. The fee is \$105 payable to the Research Foundation upon verification of a test date and site.

Alfred State College, a member of the technology college sector within the State University of New York (SUNY) system, offers outstanding educational opportunities for students in its nearly sixty associate degree programs, seventeen baccalaureate degree programs, and several certificate programs.

Numerous vocational-technical offerings stressing hands-on learning are available at the School of Applied Technology Campus located in nearby Wellsville, New York. The College is accredited by the Middle States Association of Colleges and Schools, and several programs also are accredited or approved by program-specific professional organizations.

All programs and services of the College are administered without discrimination on the basis of race, color, religion, national origin, sex, sexual orientation, age, disability, marital status, or status as a disabled veteran or veteran of the Vietnam conflict.

PROGRAM INFORMATION

In order to provide the highest level of quality for transportation facilities, most state agencies along with AASHTO, FHWA and NAPA have adopted quality assurance specifications. Part of this process includes using qualified personnel for sampling and testing. According to federal regulations "all sampling and testing data to be used in acceptance decision or the IA program will be executed by qualified sampling and testing personnel." (Federal Regulation 23 CRF 637) HMA Density Inspector Certification Program is intended to provide qualification of personnel performing density testing on Hot Mix Asphalt in New York State. Certification is valid for five years and is based on attending the two day program and successfully passing the written examination. The examination includes the following:

- Chapter 2 Density and Pavement Performance
- Chapter 3 Determining the Density of HMA Pavements
- Chapter 4 Controlling the Variables that Influence the Compaction of HMA
- Chapter 5 NYS Density Testing Inspector Roles and Responsibilities
- Chapter 6 Use of Density as a Quality Characteristic in NYS

WRITTEN EXAM INFORMATION

Participants are able to use their manual during the exam. Examinees must receive at least 70% per section and an 80% overall for the entire exam. Failing of the section or of the overall examination will require a written retest. The exam will be 100 multiple choice and true/false questions. Some questions may include calculations. The breakdown by chapter is approximately:

- Chapter 2 - 10 questions
- Chapter 3 - 15 questions
- Chapter 4 - 20 questions
- Chapter 5 - 30 questions
- Chapter 6 - 25 questions
