An Insider's View on Washington & Albany
What's Going on and What Does it Mean? 10:15 a.m. - 11:15 a.m.
John Faso

John Faso represented New York's 19th Congressional District from 2017 to 2019. Prior to that, he was a Member of the New York State Assembly from 1987 to 2002, serving as Minority Leader from 1998 to 2002. He twice ran statewide in New York, challenging Alan Hevesi for State Comptroller in 2002 and Eliot Spitzer for Governor in 2006. Regarded by friend and foe alike as a thoughtful and critically thinking leader, Congressman Faso will offer his take on the latest machinations in Albany and Washington, and what they—and the upcoming elections—are likely to mean for our State and your businesses.

10 Years of Growth: Time to Party or Panic?..... 9:00 a.m. - 10:15 a.m.

Ken Simonson, Chief Economist, AGC of America

The 2019 AGC NYS Summer Meeting will occur just after the U.S. sets a record for longest economic growth. Most contractors in New York and elsewhere remain busy, with seemingly solid order books for the year ahead. But there are reasons to worry about the impact of trade disputes, labor shortages and interest rates. Is it time to prepare for further growth or a downturn? AGC of America's chief economist, Ken Simonson, will read the economic tea leaves and give his views on what they mean for construction spending, labor and materials in New York and nationwide.

Perceptive Power Dare to Take the Survey?..... 10:15 a.m. - 11:15 a.m.

Dawn Preston & Ken Wengert, Travelers Insurance

This presentation will discuss:

- The purpose of a perception survey and why you want to conduct one.
- How to get agreement and approval from management to conduct the survey.
- How perception surveys are scored to ensure accurate feedback.
- How to communicate the results in relation to the safety management system.

Based on the experience of the presenters with perception surveys, this session will use data from surveys across industries to show how organizations can use this valuable tool in improving their safety management system. Actual experiences with the process of administering and taking a perception survey will be reviewed. Attendees will also learn about the pros and cons of conducting a perception survey and how they can prepare to avoid the pitfalls.
