

## COVID 19 and Fund Construction

The State University Construction Fund (“Fund”) has received multiple requests from the construction industry seeking confirmation that contractors, consultants, services and material suppliers are considered exempt from the reduction in workforce requirements outlined in Governor Cuomo’s Executive Order 202, as amended. The Executive Order provides that the essential businesses and services that are not subject to the in-person restrictions include construction infrastructure including vendors that provide essential services needed to ensure the continuing operation of government.

The Fund is continuing implementation of its capital program as an essential government function and will continue to bid and construct projects. Contractors and Consultants awarded such contracts, and their subcontractors, suppliers, vendors, specialty firms and professional services that support such work are all exempt for work to support the capital program.

Given the rapidly evolving circumstances caused by the COVID-19 pandemic, the Fund will communicate any changes to this position as further directed, as soon as they become available.

Thank you for your continued efforts and professionalism!

ANNE L. GARRITY, PE
