Over the years, AGC, ECA and NESCA have developed one of the most successful Supervisory Training Programs (STP) in the country...over one-hundred Superintendent Courses since the inception of the program some twenty plus years ago, training over 3,000 local supervisors, trades people, and office personnel.

Unit #1, Leadership and Motivation will describe the value of effective supervision of workers and improve the construction supervisor's ability to lead and motivate others. Unit #1 will cover: Leadership skills in action, the dollars and sense of people in construction, helping people perform better, motivating and leading others, training and orienting crew members, team building and more.

- ❖ **Leadership and Motivation** is for Superintendents and foremen, People who aspire to become superintendents and foremen, estimators, project managers, supervisors who work for subcontractors, safety directors, field engineers, expeditors, and training directors.

If you have any employees who may be interested or if you would like additional information on the STP, please call or e-mail Laura Regan at ECA (518-869-0961 or laurar@ecainc.org). The Program has been developed by the Associated General Contractors of America. More than 200,000 individuals have participated in STP courses nationally. It was developed by contractors for contractors. Give it a look if you haven't already done so!
