PAYMENT MUST BE RECEIVED PRIOR TO ATTENDING THE FIRST CLASS

Over the years, ECA has developed one of the most successful Supervisory Training Programs (STP) in the country...over one-hundred Superintendent Courses since the inception of the program some twenty plus years ago, training over 3,000 local supervisors, trades people, and office personnel.

Unit #3, Planning and Scheduling will help construction supervisors understand ways in which planning and scheduling saves time and money, while increasing quality in the construction process.

Topics will include:

- Preparing the project plan
- Communicating the plan
- The critical path
- Computer use in scheduling
- Using the schedule on the jobsite
- Updating the construction schedule
- The schedule as documentation

❖ **Planning and Scheduling** is for Superintendents and foremen, people who aspire to become superintendents and foremen; people who work with superintendents and foremen; supervisors who work for subs; field secretaries; owners, architects, and engineers; anyone who communicates with the job site.

If you have any employees who may be interested or if you would like additional information on the STP, please call or e-mail Laura Regan at ECA (518-869-0961/lauras@ecainc.org). The Program has been developed by the Associated General Contractors of America. More than 200,000 individuals have participated in STP courses nationally. It was developed by contractors for contractors. Give it a look if you haven't already done so!
